

EUCLES

European Clusters Labelling Excellence Structure

*The trusted European benchmark
for cluster management excellence.*

WHAT IS THE EUCLES LABEL

The EUCLES Label is a recognised European quality mark that evaluates and certifies the managerial maturity and performance of cluster organisations. It builds on the work of the European Secretariat for Cluster Analysis (ESCA) and offers three levels:

Bronze Label: Commitment to Excellence

Silver Label: Progress Towards Excellence

Gold Label: Proven Excellence in Cluster Management

KEY BENEFITS OF EUCLES LABELS

• Strategic Recognition

Demonstrates your cluster's maturity and credibility to public authorities, funders, partners, and commitment to management excellence.

• Stronger Funding Potential

Recognised labels are often required or favourably viewed in EU and national funding programmes.

• Visibility & Trust

Join the map of Europe's top-performing clusters – get noticed by international networks.

• Partnering Made Easier

Quality assurance helps attract strong project partners, both in Europe and globally.

• Continuous Improvement

The evaluation process helps you understand and improve your management systems and impact.

”

The Gold Label of Excellence has significantly elevated our visibility at the EU level and strengthened our ability to identify and seize strategic opportunities—both for our cluster organisation and our members.

Lubos Komarek, Chairman of the Board, NANOPROGRESS
